PROFESSIONAL SUMMARY

Top 1% Petroleum and Gas Engineering undergraduate at the Federal University of Technology Minna (CGPA: 4.71/5.00) with a National Diploma in Electrical and Electronics Engineering (Distinction). Brings over three years of full-time industrial experience across process plant operations, precision workshop fabrication, and multi-site field maintenance, servicing 60+ machines across 15+ operational sites. Promoted to Contract Staff within 9 months as the only intern selected from an entire cohort. Recipient of multiple national and international merit scholarships, including the Wells Mountain Initiative (USA), as one of four engineering scholars selected across Africa. Committed to safe, disciplined, and results-driven engineering practice in oil and gas operations.

EDUCATION

Federal University of Technology, Minna (FUTMinna)

Minna, Nigeria

B.Eng., Petroleum and Gas Engineering (CGPA: 4.71/5.0, Top 1%)

2023 – 2028 (In View)

Outstanding Academic Rendition Award (5.00 CGPA) . Mandatory SIWES/Industrial Training Placement: 2026

- **Relevant Coursework:** Reservoir Engineering, Hydrocarbon Exploration & Production, Natural Gas Engineering & Management, Process Simulation, Engineering Thermodynamics, Carbon Capture & Storage (CCS)

The Polytechnic Iresi

Osun, Nigeria

National Diploma, Electrical & Electronics Engineering (Distinction, 3.69/4.00)

2021 – 2023

Best Graduating Student, Electrical & Electronics Engineering Department

- **Relevant coursework:** Power & Control systems, Instrumentation & Measurement, Circuit theory, Basic Programming, Basic electronics & Electromagnetic field, Telecommunication Engineering

SKILLS & INTERESTS

Engineering Software

: Aspen HYSYS (Process Simulation), MATLAB (Programming & Data Visualization), Python (Data Analysis), Microsoft Office Suite (Advanced), Excel (Data Analytics)

Technical

: Electrical & Electromechanical Systems Maintenance, Industrial Machine Troubleshooting (60+ machines), Submersible Pump Systems, Power Distribution, Rotating Equipment Operations, Welding & Fabrication, Milling & Turning, Iron Hardening, Generator Servicing, Multi-Site Field Maintenance

Core Competencies

: HSE Compliance & Safety Standards, Cross-Functional Team Collaboration, Technical Documentation & Reporting, Production Planning, Payroll & Records Administration, Problem-Solving under Operational Pressure

Languages

: English (Native/Fluent), Yoruba (Fluent)

Interests

: Upstream Petroleum Engineering, Energy Transition, Net Zero, Sustainable Energy, SDGs, ESG

Professional Memberships

: Society of Petroleum Engineers (SPE), Oil and Gas Trainers Association (OGTAN), International Association of Engineers (IAENG), Energy Institute (EI), Data Science Nigeria (DSN)

WORK EXPERIENCE

Amo Group of Companies

Oyo, Nigeria

Contract Staff, Electrical and Electronics Engineering

March 2020 – May 2023

- Promoted from Intern to Contract Staff (Fixed-Term, renewable) within 9 months — the only intern selected from the entire cohort across a 500+ employee company
- Managed a continuous soybean processing line producing ~40 tonnes/shift across 3 daily shifts; maintained 20+ industrial machines (extruders, oil presses, hammer mills), ensuring consistent throughput and zero unplanned downtime

- Performed hands-on electrical and electromechanical maintenance across power distribution systems, control panels, generator backup, and submersible pump installations across 15+ operational sites
- Administered production records, payroll, and inventory data for 150+ workers across 3 shifts, building strong technical documentation and data management practices
- Executed workshop operations including milling, welding, fabrication, and component refurbishment; applied HSE protocols consistently across all operations — total equipment maintained exceeded 60+ units

PROJECTS & TECHNICAL EXPERIENCE

- **Reservoir Fluids & Petrophysics Laboratory (FUTMinna SWEP):** Conducted experiments on porosity, capillary pressure, bubble-point pressure, and thermodynamic properties of reservoir fluids; fabricated a bench vice and metal scraper in the machine workshop
- **Automatic Changeover Switch with Indicator (ND Final Year Project):** Designed and constructed a functional automatic power changeover system with status indication

LEADERSHIP & EXTRACURRICULAR EXPERIENCE

Assistant Secretary | Student Volunteer, Society of Petroleum Engineers (FUTMinna Chapter) *June 2023 – Present*

- Coordinate chapter operations and manage communications across 200+ members, driving a 15% increase in active membership and participation through structured outreach and technical sessions
- Represented the chapter at national events including the SPE Annual Student Congress (SAASC) and SPE Oloibiri Lecture Series (2025); Nigeria Oil & Gas Conference (NOG 2025) on behalf of OGTAN
- Maintained official chapter records with 100% accuracy, ensuring institutional compliance and effective sponsor engagement

Team Lead, Content Creation & Campus Ambassador, Lecture_Hub E-Learning Platform *March 2024 – Present*

- Develop and manage structured learning content and mentorship resources for a registered energy-focused platform serving 900+ community members and 60+ active mentees across 3+ African countries
- Support annual mentorship cohorts connecting energy professionals and students with mentors from leading oil and gas organizations; contribute to curriculum design and learner engagement strategy

Community Service & Volunteering, 300+ Hours Across Multiple Initiatives *September 2019 – Present*

- **Millennium Fellowship (United Nations, 2024):** Co-led a team of 11 to deliver educational resources to 100+ primary school pupils in Gidan Kwano, a resource-limited community with constrained access to formal education
- **SPE Energy4Me & Pad-A-Girl Initiatives:** Reached 500+ students across 4 secondary schools, promoting clean energy awareness and STEM education
- **Quality Education for All Initiative (QEFAI):** Supported educational and youth empowerment campaigns through content development, digital outreach, and volunteer collaboration for programmes focused on digital literacy, mentorship, and technology-driven learning

NOTABLE ACHIEVEMENTS & SCHOLARSHIPS

- Vice-Chancellor List of Exceptional Students, FUTMinna *2026*
- Scholar, The Africa Education Initiative (NEF) _top 1% African student selected for excellence and potential *2026*
- Scholar, Wells Mountain Initiative (WMI), USA — one of 4 engineering scholars across Africa *2025*
- Scholar, Petroleum Technology Development Fund (PTDF) — nationally competitive, merit-based award *2025*
- Scholar, MTN Foundation Science & Technology Scholarship — top-performing STEM students in Nigeria *2025*
- Scholar, Jim Ovia Foundation Scholarship (MUSTE) — one of 100 Scholars selected nationally, fully funded *2025*
- Fellow, Aspire Leaders Program, Harvard Business School (Leadership & Entrepreneurship) *2025*
- Fellow, Millennium Fellowship, Millennium Campus Network / United Nations *2024*
- Outstanding Academic Rendition Award (5.00 GPA) — awarded twice *2023 & 2024*
- Best Graduating Student, Electrical & Electronics Engineering — The Polytechnic Iresi *2023*
